

Quiz-6 Virtual memory

Marks: 10

Q:1- Given page reference string:

1, 2, 3, 4, 2, 1, 5, 6, 2, 1, 2, 3, 7, 6, 3, 2, 1, 2, 3, 6

Total references: 20, number of page frames = 4.

Simulate the following page replacement algorithms:

- (a) FIFO (b) LRU (c) Optimal (d) Second Chance

For each algorithm:

page fault ratio = page miss ratio

- Write H (Hit) or F (Fault) below each page reference also calculate Page Fault Ratio.

a-FIFO:

1 2 3 4 2 1 5 6 2 1 2 3 7 6 3 2 1 2 3 6
Hit : 6 Fault : 14 Page Fault Ratio : 14/20

F1	1	1	1	1	5	5	5	5	3	3	3	3	1	1					
F2		2	2	2	2	6	6	6	6	7	7	7	7	3					
F3			3	3	3	3	2	2	2	2	6	6	6	6					
F4				4	4	4	4	1	1	1	1	2	2	2					

b-LRU:

1 2 3 4 2 1 5 6 2 1 2 3 7 6 3 2 1 2 3 6
Hit : 10 Fault : 10

F1	1	1	1	1	1	1	1	6	6										
F2		2	2	2	2	2	2	2	2										
F3			3	3	5	5	3	3	3	3									
F4				4	4	6	6	7	7	1									

Page Fault ratio: 10/20 = 1/2

1, 2, 3, 4, 2, 1, 5, 6, 2, 1, 2, 3, 7, 6, 3, 2, 1, 2, 3, 6

c-Optimal:

Page Hit : 12

Page Fault : 8

Page Fault Ratio : 8/20

F1	1	1	1	1	1	1	7	1											
F2		2	2	2	2	2	2	2											
F3			3	3	3	3	3	3											
F4				4	5	6	6	6											

1, 2, 3, 4, 2, 1, 5, 6, 2, 1, 2, 3, 7, 6, 3, 2, 1, 2, 3, 6

d-Second chance:

Page Hit : 10

Page Fault : 10

Page Fault Ratio : 10/20

F1	1(1)	1(1)	1(1)	1(1)	1(1)	1(1)	1(1)	1(1)	1(1)	1(1)	1(1)	1(1)	6(1)	6(1)	6(1)	6(1)	6(1)		
F2		2(1)	2(1)	2(1)	2(1)	2(1)	2(1)	2(1)	2(1)	2(1)	2(1)	2(1)	2(1)	2(1)	2(1)	2(1)	2(1)		
F3			3(1)	3(1)	3(1)	3(1)	5(1)	5(1)	5(1)	5(1)	3(1)	3(1)	3(1)	3(1)	3(1)	3(1)	3(1)		
F4				4(1)	4(1)	4(1)	4(1)	6(1)	6(1)	6(1)	6(1)	7(1)	7(1)	7(1)	7(1)	7(1)	1(1)	1(1)	

e- If frame size is decreased to 3, will FIFO show Belady's Anomaly in this case? Write Yes or No with a short reason.

3

1	4	6	3	7	6
2	1	7	7	1	
3	5	1	6	3	

Fault
Page Hit = 13

Page Fault Ratio = 13/20 → for 3 frames

Page Fault Ratio : 14/20 → for 4 frames

No, FIFO will ^{not} show Belady's Anomaly as more frame → ~~more~~ page faults less.
